

## 2-3 直线的投影

- (4) 在直线AB上一点C, 使点C到V面与H面的距离相等 (5) 已知线段AB=AC, 求 $a'c'$   
并作出三面投影

- (6) 做水平线与直线AB和CD相交并与H面相距15mm

- (7) 作一直线MN与已知直线CD、EF相交，同时与AB平行(点M在CD上，点N在EF上)
